**Her Little Girl
HAD
“Double
Pneumonia”**

Next to consumption there are more destructive diseases than pneumonia. In fact, pneumonia might be described as “long fever.”

A cough is the earliest symptom. It is at first frequent and hacking, and is associated with a tickle, redness of the eyes, and a slight fever. The disease may continue for a week or two, and is of a pale, rusty, red color. The breathing becomes rapid, the temperature rises and the patient suffers from the fatigue of the heart's action.

Most people are more commonly attacked than females, and a previous attack seems to give a special tendency to an attack.

On the first sign of a cough or cold you should get a bottle of Dr. Wood's Normay Pine Syrup and thus prevent the cold from developing into serious lung trouble.

Mr. J. C. Schenck, Druggist, says, "Just a few drops to the left nostril of the benefit I have had from your wonderful medicine. Two years ago I nearly lost my life, but after being given her a few bottles of Dr. Wood's Normay Pine Syrup, I found that it never failed me. I now know it had completely relieved her. I now always tell other people to use it."

Price 55¢ and 6¢ a bottle; put up only by The T. Miller Co., Limited, Toronto, Ont.

**ALBERTA GOVERNMENT
EMPLOYMENT BUREAU**

A Bureau for the City of Wetaskiwin and district is located at the U.E.A. Cooperative Store, with A. P. Moon in charge.

Employers are requested to make their requirements, as far as assistance is concerned, known at above address, and that seeking employment should register at once.

Employment Bureau are for both men and women.

Three Little Brown Jugs

(By Bertha E. Green)

It was a delightful morning, warm and clear, with just enough breeze to keep one from saying that the day was too hot.

At the west side of the oil pasture there were many weeds and shrubs growing in the fence corners and on any other part of the Hollis farm. Dick often walked alongside the fence rail to watch the buzzing of the bright winged ones among the insect folks. Plenty of weeds, plenty of sunshine, and over so many hiding places. Here, Dick knew the people of World War Wonders were always to be found. He knew many of them by sight, but he never visited this part of the farm without making a new acquaintance!

This morning he was watching a tremendous battle between two parties of soldier beetles. The blue and red fighters were so mixed up that Dick could not tell one army from the other. He was sure that the soldier beetles did not know who was who, and was just about to turn away when Dick caught sight of him. Dick replied:

"I didn't think you'd start a fight like that, Dick."

Hep, the Little Green Man, was sitting astride a narrow leaf, high up on a spike of goldenrod, and as soon as Dick caught sight of him, Dick replied:

"I didn't start the fight, Hep."

"Well, why don't you stop it?" asked Hep.

Dick laughed at the idea of anyone stopping a fight among soldier beetles and said:

"I just was watching, and you must have been watching too, Hep, or you wouldn't know there was a fight going on."

"Oh, yes," said the Little Green Man. "But I did not come here just to watch a beetle battle. I came to tell you I found three brown jugs."

"Show them to me now you Hep."

Hep beckoned and Dick at once wished that he were little too. In a twinkling, not one but two big, fat, yellowish jugs were hanging from the goldenrod so high, he soon climbed up to where Hep was sitting.

"Where are the jugs?" asked Dick as soon as he had joined his tiny friend.

"They're not here now," Hep replied.

"I've got 'em now!" Hep said.

Wrapped snug in a rug;

But cooter still

In a bag in a jug,"

sang the little green man, who then turned to Dick and said more seriously, "Look on the leaf stem behind you, and you will see the three little brown jugs."

A leaf stood almost straight out from the slender stem behind Dick, and fastened to its upper side were three round, greyish brown balls. They looked almost like hornets' nests upside down, excepting that they were very small, and instead of being yellowish, they had a cork-like top, "very, very like the jugs' nests to me," said Dick.

"But they are all clay ones," completed the Little Green Man.

Dick already knew about the mud-built nurseries of Jill, the mason bee, and of the Mud-dasher wasp. These tiny, mud-built jugs must be nests of the same kind. The question was whose nests were they?

The Little Green Man was shelling the board from his settlers and through the goldenrod tops,

"I see hep!" said Hep. "Here comes the jug maker!"

Even as he spoke a sharp-wailed wasp came flying swift, and alighted on the sun branch to which the jugs were attached.

She was brown in color, yellowish brown with yellow markings underneath. Her body was shaped much like a wasp, but she had a much longer wingspan. That Dick already knew.

"You should have said, but 'cooter still is a wasp in a jug,'" Master Hep said the new arrival, folding her wings by each other over her back, bright, clear, shiny wings they were too.

"You mean to say there is a wasp in each of the three little brown jugs?" asked Dick in astonishment.

"Yes, Master Hep," said Master Hep.

"I built the three jugs all by myself."

and the wasp. "They are made of mud, plastered and stiffened with hair to stand planted and stiffened with hair to stand. You could see under you would find each egg smooth and clean. Before I put the tops on I went hunting."

"And caught eight caterpillars," said the Little Green Man.

"I stung each one" continued the wasp, "and put it to sleep. Then I carried them to these big nests and packed them snugly inside the jugs. I laid an egg in each nest and covered them over with a mud lid."

"So there is an egg, not a wasp, in each jug," said Dick.

"The eggs have hatched by this time," said the wasp, "and there are now fine, fat grubs; wasp grubs with plenty of caterpillar dinners handy to make them grow."

"Don't they crawl outdoors at all?" asked Dick.

"No as grubs," answered the wasp, "but when their nests change to something quite different from grubs, for when they cut a hole in the side of the nest, they step out into the sunshine, bright, winged wasps." Saying this, the wasp darted away.

Dick and Hep made their way carefully down the long stem of the goldenrod, over every now and then Dick would look back, to see above him, swinging on the goldenrod, the three little brown jugs.

"I didn't think you'd start a fight like that, Dick."

Hep, the Little Green Man, was sitting astride a narrow leaf, high up on a spike of goldenrod, and as soon as Dick caught sight of him, Dick replied:

SOLDIER SETTLERS
ARE MAKING GOOD

OTTAWA, December 15.—That soldier settlers of the land are in a much improved position as compared with a year ago was the statement today of Major J. F. Richards, chairman of the Royal Canadian Legion, who based his report on the satisfactory return from collections throughout the Dominion. The repayment date for soldiers settlers and in Eastern Canada November 1st, and returns on the 1st of November show that 32 per cent of the amount due from board to settlers has been paid, and that 50 per cent of the amount due from rent has been paid in the first month of November.

Major Richards said: "The new legislation went into effect in July, to the end of July 31.3 per cent of the settlers had failed to make good and quit their farms. Many of them had found that the heavy payments in the earlier years on account of stock and equipment loans were a burden which they could not bear. Parliament, as a result of the Master Budget, has taken off the interest rates on four and six year equipment and stock payment over 25 years. This has had the effect of greatly encouraging many settlers who were finding their payments excessive in the early years. They stayed with their farms, and most of them, as the collections already said, have had a good year. This year, however, the number of settlers has increased only by two-fifths of one per cent up to the end of October, and the board has every expectation and hope that the numbers who will eventually fall will be greatly minimized by the favorable legislation of a year ago."

"The new legislation has been well received by the settlers," said Major Richards.

WHAT HAS NEXT YEAR IN STORE?

If we pay too much attention to our local crop of prophecy we are all too easily raised to the heights of optimism, and only too easily cast down by the depths of despair. One self-appointed soothsayer range all the way from a "business boom" next year to "continued business stagnation."

What is one to do? The best answer is that one must believe "what the other man says the other." One man's guess is just as good as the next man's. No living person can predict what is going to happen tomorrow, let alone next year; thus, why let our appetites and dispositions be soured by the vapors of the professional gloom dispenser or his equally obnoxious brother, the glad-hand optimist. Above all, let us not we go needlessly in the scheme of things. It is true, the West has had its till of booms. Every such period has been followed by a corresponding period of stagnation. Preferable is a steady growth of the country's wealth and population, and this is never to be attained by sudden up with corresponding sudden down. On the face of it we are not due for anything approximating a boom, nor are there any indications in sight which would provide a spark of a real boom.

Our opinion is that the country as a whole has passed through its worst phase, and we can look for a steady improvement in business conditions. Next year is not going to produce anything startling. How can it, with the prices of farm products out of all proportion to the prices of the commodities the farmer needs most have?

The people back East in the "up" era, thinking in eight" period of 1914-15, to the "don't buy anything" of 1920-21 in 1922 it was already on the back swing. Business showed the initial signs of standing. In 1923 it will swing further into a return of gravity, but we do not want it to swing to extreme points. The business history of this country might well be described as cyclical, and it did not fit conveniently into any kind of a smooth curve. It reaches a peak, then a running decline to a period of actual distress. There will always be such periods in all probability, but it would be far better if the times of economic expansion stopped short of the "boom" stage and partook of a more natural growth upon a fairly level basis. Profits might not be so heavy, but the other possibilities would be as severe: labor might not get inflated wages, but it would get steady wages. In the long run we all should benefit by a prolonged absence of the "boom". -Commercial.

Farmers Should Get Down to Business

The following article is reprinted from "Canadian Finance" issue of November 15, 1922, and deals in part with the speech of Hon. Geo. Hoodley before the Alberta Municipalities convention. He says that if men are farming as an occupation, they should get down to business of agriculture in earnest. Mr. Hoodley's remarks apply to the average farmer is something each farmer will have to figure out for himself.

"One of the greatest lessons to be learned is that there is no such thing as "easy" money, and that it is a misnomer to say that the government can pay for anything; it is the state that pays first, last, and at the time."

It was with such language that the Hon. George Hoodley, provincial minister of agriculture, told the delegates attending the Alberta association of Municipal Districts at their convention that no one need look to the Alberta government for any assistance in the future in the way of free seed.

"We have to look facts in the face, whether in competition with seed dealers or anything else," he commented. He emphatically declared that while the government would make provisions for seed grain for the coming year, this would only be available for the people who could pay for it.

Mr. Hoodley, in continuing his remarks on "easy" money, reiterated that there was no such thing; that all revenue came from the producer in that or any other part of the

world; it was the basic on which credit was erected, and which made it possible for a government to conduct its affairs. In giving seed grain they were only creating paupers at their own expense.

The minister referred to a visit to Ontario last winter, undertaken with the object of purchasing dairy cows. One man brought in to the market's head of a herd of 65, and when he was asked if he did not think it would be better to purchase feed for them there until the next year the man replied that he would rather sell half his herd than run debt.

"It seemed to me I was in a strange country," said the minister. "The people in our favorite occupation here in the past have had to get debt paid off." Who do you think should pay for the seed grain?" he asked. "Many people say these days, that I will pursue the policy I choose." My attitude to such people is that I would put them on the back and say 'go to hell,' but don't ask anyone for help. Why some people are putting in crop after crop, I don't know. I think that it is a thousand to one that they will be halted out. And who is paying for that? Those people, under ordinary circumstances, won't pay. They say, however, 'you must not touch my individual freedom.'

"Coming back to the question as to who is going to pay for seed, I do not know whether you are aware of the fact, but I am, especially since hearing the speech of Mr. Hoodley. There are people in Alberta who travel every day of their lives—almost the time—but they did not belong to a working world."

"Just imagine people in this province who are not working," said the minister, "then sitting down with their backs to the sun and hoping that God would play His part in producing a crop, and if this did not come about, turning to some other authority, like the provincial government, to help them out. Do you want us to go on feeding those who won't work, at the expense of those who will?" he asked. "Because after you have taken all the fruits from the subject that is what it amounts to."

The minister stated he had been in the province now for many years and saw a great difference. Twenty years ago there was no one to solve their problems, "and let me tell you this is still the case. These days we stand on our own feet; they used their own brains and solved their own problems. That is what makes real men and what makes a country. Other people are not needed here," he said.

Mr. Hoodley said they were trying to adjust conditions as quickly as they could, but that this would of necessity be slow. He cited the case of one farmer on one side of a road allowing who had seventeen bushels of wheat to the acre, while the farmer on the other side had only a crop of Russian wheat.

"Do you want that sort of thing to continue?" he said. "The idea of the government at the present time is that the limit is reached."—Canadian Finances.

The Moonlight Sonata

Cold, brilliant moonlight silveryed the snowy roofs of quiet old houses.

Through a narrow street the master was walking with a friend. "Hush!"

He exclaimed, halting suddenly in front of a little house. "Listen! That is my Sonata in F. How well it is played!"

They edged up to the door. In the midst of the final the music ceased abruptly, and a voice cried sadly, "Oh, I can't play any more. It is so hateful! Oh! If only I might go to Koln."

"Yes, sister, but why wish for what cannot be?" said a second voice.

"Let us go in," said Beethoven. And, despite his friend's objection, he placed his hand on the latch. "I shall play for her and she will understand."

He opened the door. There at the threshold the brother mended shoes.

The girl was very sorry, bowed her head upon the side of the piano.

"Pardon me, but I heard your name and I also heard your wish," said Beethoven. "Perhaps if you will allow me, I can fulfill it."

The brother thanked him. "But our piano is so poor," he apologized, "and we have no music."

"No music?" exclaimed the master, "but where does she—" "Oh, forgive me," he stammered. "The girl had lifted her head, and he saw that she was blind.

She gave Beethoven her place at the piano. He ran his fingers along the yellow keys. Under his touch the worn strings sang as if born anew, and out of the old instrument trooped hosts of her compelling melodies to surround and captivate the wondering pair. The flame of the candle sputtered fitfully and presently went out. The girl clapped over and fitfully threw open the shutters. As the

HOW THE GREAT GUEST CAME!

(By Edwin Markham)

Before the Cathedral in grandeur rose At Ingelburg where the Danube goes, Before its frost of silver spirals Went airily up to the clouds and fires, But the Danube's waters already, a bœuf, White as the arch was stone, and dreams.

There where the altar was later laid, Counted the cobbler piled his trade. It happened one day at the year's white end, Two neighbors called on their old time friend; And they found the shop so meager and mean,

Made gay with a hundred bouges of Corned was stitching with face ashine But suddenly stopped as he twitted a twine:

"Old friend, good news! At dawn today As the cocks were scaring the night away,

The Lord appeared in a dream to me, So I am coming your Guest to be!"

So I been busy with feet astray, Stretching the floor with branches of fir.

The wall is washed and the shelf is shined,

And over the rafter the holy twine He comes today and the table is spread

With milk and honey and wheaten bread."

His friends went home; and his face shone bright as the sun.

As he watched for the shadow across the sill,

He lived the moments all o'er

When the Lord should enter by the lowly door—

The knock, the call, the latch pulled up,

The lighted face, the offered cup.

He would wash the feet where the spider had been:

He would kiss the hands where the nail-worm went in;

And then at the last would sit with Him

And break the bread as the day grew dim.

While the cobbler's muse, there passed his pane—

A beggar bronched by the driving rain.

He sat and ate in the stony street And saw him shoes for his bruised feet.

The beggar wept and there came a crone,

Her face with wrinkles of sorrow shown,

A bundle of faggots bowed her back And she was spent with the wrench and rack.

He gave her his coat and steamed his hand to her cold face.

As she took her way on the weary road,

Then to his door came a little child.

Lost and afraid in the world so wild In the big dark world. Catching it up,

He gave it the milk in the waiting cup,

And led it home to its mother's arms Out of the reach of the world's alarms.

The day went down in the crimson west,

And with it the hope of the blessed Guest.

And Conrad sighed as the world turned red gray;

"Why is it, Lord, that your feet delay?

Did You forget that this was the day?

Then soft in the silence a Voice he heard:

"Lift up your heart, for I kept my three times I came to your friendly door;

Three times my shadow was on your floor;

I was the beggar with bruised feet;

I was the woman you gave to eat;

I was the child on the homeless street!"

Do you know that The Times has considerably more than twice the circulation of any other paper in the district. Remember this when you are advertising!

—

FOUR WONDERFUL RELIEF FROM CONSTIPATION

BY USING

MILBURN'S LAX-LIVER PILLS

Constipation is one of the most prevalent troubles the human race is subject to, and the greatest cause of many of our ailments, for if the bowels cease to perform their function properly all the other organs will become deranged.

It is a disease of a working family and naturally the use of Milburn's Lax-Liver Pills, and thus do away with the constipation and all other troubles caused by it.

Mr. A. H. Spence, Springfield, N. S., writes: "I have suffered for some time from constipation, and was advised by a friend to try Milburn's Lax-Liver Pills. After taking them I have had fine wonderful relief, and would advise all those who are constipated to give them a trial for I feel sure they will also receive the same benefit I did."

The T. Milburn Co., Limited, Toronto, Ont.

The January issue of Rod and Gun in Canada, the opening number for 1923, sets a high standard for the important issues to come. The author of this article suggests that it should please every sportsman. An interesting article on the "splendid features" greets the reader. Bonny castle Dale excels himself in his splendid contribution. "A Christmas Day's Duck Hunting," while "A Trip up the Taku River" is another article that is sure to please. Harry M. Moore, the gifted Canadian writer, has never written a better story than "Bonny," which is another big attraction. The author is listed in various departments, the fine illustrations are superb, and the whole is a masterpiece of quality and excellence. Rod and Gun in Canada is published monthly at Woodstock Ont., by W. J. Taylor, Limited.

DUNCAN MARSHALL IS HOME; ADVISES DEBORNING CATTLE

St. John, N.B., Dec. 25—an interesting passenger on the Canadian Pacific steamship Minnehosa, which arrived in St. John Saturday, was the Hon. Duncan Marshall, commissioner of agriculture for Canada, who has been in England since last September in connection with the cattle embargo negotiations.

Speaking of the embargo on Canadian cattle, he said that prior to his departure to England he had the pleasure of seeing this important question settled.

The question of lifting the embargo was watched with the keenest interest throughout England, and

its passage paved the way for a visit to this country of many of the big cattle kings, who announced their intention of coming back here during the winter to purchase all grades of stock. All expressed great satisfaction at the removal of the embargo as well as the glad tidings given them that it was proposed to remove the Canadian quarantine on British pure bred cattle in this country.

Mr. Marshall brings an important suggestion to Canadian cattle men. All those who intend shipping steers next fall should obtain them in the spring. Search the various departments, the fine illustrations are superb, and the whole is a masterpiece of quality and excellence. Rod and Gun in Canada is published monthly at Woodstock Ont., by W. J. Taylor, Limited.

The January issue of Rod and Gun in Canada, the opening number for 1923, sets a high standard for the important issues to come. The author of this article suggests that it should please every sportsman. An interesting article on the "splendid features" greets the reader. Bonny castle Dale excels himself in his

splendid contribution. "A Christmas Day's Duck Hunting," while "A Trip up the Taku River" is another article that is sure to please. Harry M. Moore, the gifted Canadian writer, has never written a better story than "Bonny," which is another big attraction.

The Sacrament of the Lord's Supper will be conducted at the close of the evening service.

We wish to all the world a happy and prosperous New Year.

William H. Irwin, pastor.

IMMANUEL CHURCH

The services on Sunday last and Christmas Day were very well attended, the evening service on Sunday being a very enjoyable one. Carol singing and Christmas hymns made a proper prelude to the great festival of Christmas. The celebration of holy communion on Monday evening was a beautiful and fitting climax to the Christmas services. The church was very beautifully decorated with spruce and holly, red and white carnations being the altar flowers. The Rev. A. A. Adams of Edmonton preached at all the services, his Christmas message being "Thanks be unto God for His unspeakable Gift," and said that his wife and himself, like many others, had been a very happy couple owing to the helpful spirit that had pervaded among the people. His wish was that God's blessing in the future would rest upon both rector and people alike.

Farmers of the province are reported of the annual provincial seed fair, and convention of seed growers, which will be held in Edmonton January 16, 17, 18 and 19. The convention of seed growers will be held for the purpose of considering the formation of a Provincial Seed Growers association.

The Poor Little Newsboy

He had no father, did Don Gray, and his mother was very poor. He was about twelve years old, his hair was dark and his eyes were brown.

The Movie and The Rockies

WHILE acting as a special investigator for the Canadian government, James Oliver Curwood became enamored of Nature's wonderland in the Canadian Rocky mountains and made it the scene of many of his stories. "The Valley of Silent Men," that little Eden of the North, over which three anawakish Indians ruled, was no myth. Mr. Curwood simply claimed it by robbing a right and taking the way to it. It was a trail taken by the heroine, the little Canadienne, Matricote, and the gallant Corporal Kent of the Royal Mounted Police.

But with all his skill as a wordsmith, Mr. Curwood could only indicate the beauty of the land of Paradise. With the "still" camera and the painter's canvas can capture only isolated bits of natural beauty, while the spectator can hardly realize their truth. But now the motion picture camera has come along to bring wood's trail, and in filming "The Valley of Silent Men" amidst the very scenes which the author describes, the Canadian Pacific Railway has brought home to millions of screens the natural wonders of the Canadian Pacific Rockies.

Curwood's desire to have the pictures especially thrilling and dangerous scenes was fulfilled when Miss Anna Sten, silent screen star of the Stoney tribe under Chief John Powderville, were enlisted by the company to act in the scenes which the author describes. The scenes were planned to match the pictures.

One especially thrilling and dangerous scene was filmed when Miss Anna Sten, after a long climb in a glacier (according to directions of the scenario)—but the hero's frantic search for her gave occasion for a race down the steep, icy, frozen river. Dog sledges bore the lovers into a "Valley of Silent Men," where their romance was consummated in the encampment of the three white sentinels of this snowy Eden of the Northland.

No expense was spared by Director Bergman and his courageous company; and the pictures as upon the silver screen have never been equalled for the skill and artistry of the work of Mr. Curwood's romance, but

and others bought them because they were sorry for Don. As he was going to bed, he heard a man jump in front of him. He had a pistol in his hand. "Your money or your life," said the man, who was very frightened, but said nothing. "You're a dead man," said the man again, but he stopped, dropped his pistol and ran away.

When Don reached home he gave the money to his mother. She looked up kindly at him and said, "What a good boy you are, Don; he was remind me of your father who went away and never came back." And then she said, "And here saw a big bear come into her eye. 'Don't cry, my mother, I will try and find him,' he said. 'If I only had a picture of him,' she sobbed. "Well, dearest mother, I must go

to bed and be up in the morning to sell more papers."

"Goodnight, dear son," she answered.

The next morning Don was up early to go to the door but turned again and went to his mother's side and kissed her, then he started down the street. When he got to the ranch, Mrs. Gray said, "What a nice looking farm."

"Yes, that is where we are going, and the people are just as nice as the farm looks," said Don.

When they reached their destination, Mr. Travilla came to meet them.

As soon as Mrs. Gray saw him she

said, "I am so glad to see you."

Zoe had a sister about the size of Don, and her name was Elsie. She had black curly hair and soft brown eyes.

Don and she took a great liking to each other.

When Don went home that night he told his mother that someone wanted to see her the next day. On the

following morning, Don and his mother put on their best clothes, started out for the farm. When they came within sight of the ranch, Mrs. Gray said, "What a nice looking farm."

"Yes, that is where we are going, and the people are just as nice as the farm looks," said Don.

When they reached their destination, Mr. Travilla came to meet them.

As soon as Mrs. Gray saw him she

said, "I am so glad to see you."

"Yes," answered Don. "I want to sell as many as I can today. I have to get home a little earlier and take some things to my mother. She was not here when we went to bed last night."

"All right, we have many you can sell," said the man. "And I hope your mother is better in the morning."

When he got to the office the man gave him a piece of paper. He picked it up and unrolled it. Inside the paper there was a gold locket with "D.G." on it. He studied a moment, then he said: "D.G." stands for Doctor Gray, my mother." There was no mother's, the other was a man whom he had never seen. He put it in his vest pocket and handed it to him who would not be seen. When

Edmonton Weekly News Bulletin

Irrigation Conference
Under the chairmanship of the Hon. Geo. Hindley, minister of agriculture, a conference on irrigation was held at Lethbridge during the past week, when the matters discussed were: a uniform method of irrigation; plans for securing more settlers for irrigated lands; and more diversified farming methods. Irrigation experts from various countries and from the U.S.A. were in attendance at the conference, who were in attendance at the conference.

Improve the Quality

The necessity for improvement of the quality of Alberta products, in order to compete successfully in the world's markets with products of other countries, was emphasized at the annual meeting of the Western Canada Livestock Union, at Brandon, Manitoba, where it was decided to be handled by the ministry of agriculture, H. A. Craig, and Live Stock Commissioner, S. G. Cartlidge, on behalf of Alberta. Better feeding and breeding of stock was particularly urged, and it was resolved to ask the Dominion government for a system of grading of hogs and steers sent to the English market.

Wetaskiwin Disposed of Seed

Nels Johnson, a former man at Milk River, was fined \$50 and costs before a magistrate at Milk River for wrongfully disposing of seed grain supplied to him under the Seed Grain Arrangements.

Coal Production

Coal production in Alberta up to the end of October, compared with the similar period of last year, was as follows: In October, 1921, 1,256,301 tons; in 1922, a total of 1,256,521 tons. In the month of October 1922, a total of 93,672 tons was produced, compared with only 58,291 tons in October of 1921. The production for October of this year was the largest for any one month in the history of the industry.

Provincial Seed Fair

Farmers of the province are reminded of the annual provincial seed fair which will be held at the exhibition grounds of seed growers, which will be held in Edmonton January 16, 17, 18 and 19. The admission of seed growers will be held for the purpose of considering the formation of a Provincial Seed Growers' association.

All Canadian Picture

The first all Canadian motion picture, produced by Canadians actors in Canada, and based on a Canadian story, "Man from Glengary," a special review held on Thursday, when the Lieutenant Governor and others were present. The story is Ralph Connor's "Man from Glengary" and the scenes were taken along the Ottawa River and at Ottawa.

New Appointment

Under the direction of the Hon. Alex. J. Smith, minister of agriculture, to whom department the large branch has been attached, Walter Sniffen, commissioner of labor for the provincial government has been empowered by order in council to administer five acts on the statutes of Alberta, which have to do with questions more or less directly affecting labor interests, and has been gazetted accordingly. These acts are the Employment Barriers Act, the Industrial Conciliation and Arbitration Act, the Industrial Employment Protection Act respecting Employment Offices, the Boilers act, and the Factories act. It has also been decided to put in the charge of Mr. Sniffen the licensing of moving picture operators and their assistants, the inspection of theatres, and the collection of the annual license fees from the operators.

Prosecuted for Fraud

On prosecution entered by the provincial department of agriculture, T. J. M. Blane, of Seven Persons, appeared before Magistrate Gurne at Medicine Hat, on Tuesday of last week,

THE LARGEST HOTEL IN THE BRITISH EMPIRE

Montreal's new palatial hotel, the Mount Royal, the largest hotel in the British Empire, was formally opened on Wednesday, December 20.

The creation of the largest hotel to date in the British Empire, the price of the American equivalent during the past year. Almost an entire year was required for the work, during which time more than 1500 men have been employed on the site.

The Mount Royal is a most impos-

ing example of Georgian architecture, for which the materials used were granite, buff stone and light buff brick. It is ten stories high and covers a site of 300x227 feet, said to be the largest space of any hotel in America. The interior design is in Italian renaissance, which treatment is also carried out in the design and colorings of the furnishings and decorations.

These excursion tickets will bear a final return limit of three months and enable those desiring to visit their home in the south an opportunity of doing so at a reasonable rate.

Full particulars will be gladly given on application to any agent of the Canadian Pacific Railway. 39-2th

Pains In Back Had To Quit Work

When you find your kidneys out of order; when you lack energy and pains; when you have to rise often during the night and endure torture during the day—take our advice and get a box of DOAN'S KIDNEY PILLS.

Mr. John Doan, of Newellton, Ontario, was 70 years old with his kidneys and bladder for about ten years. My bladder was so weak I was getting up four or five times every night. I took Doan's kidney pills and I am now able to get away my back pain no more. I tried many doctors and dentists, and never got any better until one day I met one of my friends who advised me to take Doan's kidney pills. They are good, valuable books, cost free, and every new subscription receives a copy of Doan's book, a complete copy and details of the Book. Offer can be obtained upon application to the publishers, Family Herald and Weekly Star, Montreal.

DO YOU FEEL TIRED AFTER EATING?
A tired nervous feeling may be a sign of indigestion. Doan's kidney pills will prevent proper digestion. Food turns into more poison and gas, making you nervous and weak. Simple buckthorn bark, berberis, gentian root, rhubarb, senna, expels poison and gas from BOTH upper and lower bowel. Reasons did matter you never thought of. Doan's kidney pills will cleanse your stomach and make you tired and weak again. Adlerika is EXCELLENT to guard against appendicitis. Northern Drug Company.

Price 25c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Vernon Medical Co., Ltd.
I have suffered with rheumatism for years, have tried every remedy I ever heard of, have travelled to different parts of the world, but without getting any relief.

Only those who have had rheumatism know how it has plagued me. I have had it in my joints, in my spine, in my neck, in my head, when my father bought me, six boxes of Vernon, and after taking them I have had no trouble with it, and I have not completely cured, and I have only one day's work from sickness of any kind.

There is no drug equals Vernon. I have tried them all.

THE ANNUAL CAMP OF THE ALPINE CLUB OF CANADA

On the way to the Alpine Club Camp in the Palliser Pass.

THE Annual Camp of the Alpine Club of Canada held at Banff Pass this summer, in the heart of the Canadian Rockies, has made history in this region for the year 1920. The site chosen was five miles from Banff, the headquarters of this mountaineering club, in practically a new region, and quite unknown in the general public. The camp, called the North Kananaskis Pass, eight miles distant from the main camp, was in a deep glacial valley, and was the one in which the main camp was held, and, until this summer, few parties had been there.

What was accomplished this summer is on a par with its previous record, which has from the beginning, been worthy of note, and the tents were erected in record time, and the whole world's attention to the club.

At the Alpine Congress of the Alpinists International, held at Montreux in 1920, the Alpine Club of Canada, second only to France in its exhibits.

The route to camp was via the Walking and Riding Tour Camps, Ear Clare, Fishing Camp and the Trail Centre from where this now well known trail leads up the last lap of the three day trip, twenty miles distant to Palliser Pass.

Pack train left Trail Centre

(the trail centre) and small carts

Palisser Pass and Kananaskis daily, from the main Alpine Club Camp. Kananaskis Pass as often as parties wished to leave. The Alpine pack train left Trail Centre

for Banff, four times a week, covering over one hundred miles. These camps of the Walking and Riding Tour Camps, Ear Clare, Fishing Camp and the Trail Centre, were established as permanent camps of the Banff-Mt. Assiniboine Tour; the camps were comfortable and the meals excellent. When we opened our tents, the shoe whistling an easy access into the heart of these great hills, at a distance of only a few yards from the tents of these hill-spirits still in their virgin beauty, many miles of trail civilization.

The dining tent was a large affair.

The kitchen tent was back of

the tent. Behind this stood the Art Gallery—a tent where photographs of the camp and various scenes of the trip were exhibited.

Prizes were awarded for the best in each class.

Entertainment was provided by an agent and in fact to all campers near. Four o'clock was the social hour of the afternoon when the entertainments were given.

The men's tents were near the water, the women's quarters were near the two waterfalls.

A strong tent was a

use, used for odd purposes, still further on tents were pitched for the married couples.

There were tents for the cooks, tents for the guides, tents for the porters, tents for the horses, etc.

Each tent was a complete unit.

Most of the tents were built of

the best canvas available.

It is evident that the

whole of this period these animals are a source of great danger, as they are expelling the germs in various ways from their bodies.

It is due to the deceptive nature of this disease that the live stock men find it difficult to realize that bovine tuberculosis is the greatest disease of the stock, and that it is also the greatest menace to the public welfare.

It is not many years ago that the champion steer at the Chicago International show was found slaughtered to be badly affected with tubercular

it was necessary to put the

whole of his carcass into the fertilizer tank.

The economic losses from tubercular

are enormous. The United States

authorities estimate the losses from

this disease alone to their live stock

industry at twenty-five million dollars

In this country our federal

authorities estimate that

tuberculosis in cattle has increased

from 312 per cent to 413 per cent,

and from 9 to 29 per cent in

the last ten years. Over 33 per cent

of the total number of infections found

in cattle in our large packing plants

under federal inspection last year were

due to tuberculosis, and 70 per cent of

the herd infections.

There are other

more easily treated diseases

but not so easily detected.

It takes more feed to maintain a

calves animal than one free from

tuberculosis.

Tuberculosis affects the

digestive system, the respiratory

system, the heart, the kidneys

and the liver.

It is evident that the

germs are transmitted

from the infected to the healthy

animal.

TOWN TOPICS

Dr. Crawford of Calgary was in the city this week a guest at the home of his niece, Mrs. N. A. MacEachern of the Lethbridge teaching staff.

The first meeting of the 1923 council will be held on Tuesday evening January 2nd, at eight o'clock.

Mr. and Mrs. E. S. de Rosnay spent the holidays at the home Mr. Arthur de Rosnay, Fortinash.

Mr. Bowditch of Saskatoon, is spending the Christmas vacation at the home of his sister, Mrs. Thos. Lawson.

Miss Villey, B.A., of the Wetaskiwin high school staff, went to Calgary to spend the holidays.

Mrs. J. I. Poon will receive on Friday, December 29th, from four to six p.m.

A dance will be held in the U.F.A. hall to which all are invited.

hall on New Year's Night, January 1.

Mr. McLeod, B.A., of the high school teaching staff, is spending the vacation with friends in Sedgewick and Calgary.

Miss Mabel Pope, B.A., of the Vegreville high school, is spending the Xmas vacation with her parents, and other friends here.

Word has been received that Rev. James has arrived in Canada. It is expected he will reach Wetaskiwin in a day or so.

The Ladies' Aid of the Norwegian Lutheran church will have a donation social at the home of Mrs. A. B. Ness on Friday, evening, December 29, at 8 o'clock.

The Scandinavian Hospital Society will hold their annual meeting at the home of Mrs. Gullerson on Tuesday, January 2nd, at three p.m. All members are urged to attend.

E. A. Holbrook, manager of the Bank of Montreal, was indisposed for a few days during the past week. His many friends are glad to see him again around.

The citizens of Wetaskiwin are glad to learn that Mr. Anges will likely erect a building in the spring to replace the building which was destroyed by fire a couple of weeks ago.

Fred Higginson went to Red Deer Tuesday to attend the poultry chapter meeting of the Peace Hill Chapter, I.O.D.E., will not be held until Wednesday, January 9th, when the members will assemble at the home of the regent, Mrs. Alex. Knox.

Mr. and Mrs. Joe Nelson and family, formerly of Wetaskiwin, passed through the city last week on their way from Edmonton to Los Angeles where they will reside in future.

Mr. and Mrs. E. de Rosnay, Miss Tina Fenton, Kathleen Fenton, Agnes Kelley, G. Schmidt, Slusher and Messrs. Ted and Milly Martin and Hirschel Fenton spent the week end at the farm of Mr. and Mrs. H. Armitage, at Edmonton.

Mr. Dunphy, manager of the Angus Theatre, is in Calgary this week on business. He expects to make arrangements for the production of a number of special features, so the citizens may look forward to a good program of pictures during the next few weeks.

Mr. Thomas and Miss Anne Bell came up from Calgary to spend the Xmas with their parents and other friends in the city. Thus, who had a good position with the Central Creamery Co., returned on Wednesday morning, and Miss Anna will not return until after the New Year.

Among the Wetaskiwin citizens who spent Christmas with friends out of the city were Mr. and Mrs. J. W. Gilmour, Blenheim, friends of Mr. and Mrs. W. East, at Edmonton; Mr. and Mrs. A. J. Taylor at Leduc; Mr. and Mrs. H. W. Wright at Edmonton; W. J. Loggie at Edmonton; Frank Lucas with his daughter Mrs. Graves, at Calgary; and Mr. and Mrs. Louis Zack at Edmonton.

The following excerpt is taken from The Sunrose Canadian, and refers to the canata, "The Christmas King," which was rendered there Sunday evening: "The major portion was rendered choruses, and the rest, in appropriate parts, as solos, duets and trios, with Misses McGehee, McGehee, Thelma Campbell and Dorothy Ward, and Mr. Goss taking the leading parts. It would be very difficult to conclude that any parts were given more finely than others, but that especially beautiful part, "Fair Lord Jesus," sung by Misses Campbell, Ward, and Omord, deserved all the praise that has been given it. It indeed did the chorus work which tests so thoroughly the training and preparation put upon it."

The Times has accepted the agency for one of the best lines of art calendar ever seen in the west, and we would be glad to show samples to anyone interested. These calendars are made in Canada, and the prices are very moderate. Do not place your order before seeing our line. Buy at home and keep the money in the community.

MILLET

The annual meeting of the Millet U.P.A. local will be held in Playfair's hall on Saturday, December 29, at 2 p.m. Officers for 1923 and delegates to the annual convention will be elected, and important business concerning the organization will come before the meeting. This is the most important meeting of the year and every farmer should be present and take an interest and take his stand with those who are striving for square deal. Helping your organization will help you.

On Thursday evening the Sunday school will have a service in the church. Everybody is welcome. Come and bring your gifts. Kindly prepare and bring light refreshments. Be sure and not miss this treat.

On Friday evening Rev. Higham will give an illustrated lecture on "Our Home, a tale of Christ," at Hillside. It was presented to a large and appreciative audience last Sunday evening.

Christmas feasts will soon be over for the season. In every town and rural community appropriate programs were prepared and enthusiastically given and appreciated received by packed audiences. Especially was this true of Millet, when a first class entertainment was given by the public school and high school pupils. The numbers were of a very high order, indeed, and difficult to perform, but, which made them all the more appreciated because they were all done with such enthusiasm.

On Saturday evening Rev. Higham will hold his annual meeting at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.

On Sunday evening Rev. Higham will speak at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.

On Monday evening Rev. Higham will speak at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.

On Tuesday evening Rev. Higham will speak at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.

On Wednesday evening Rev. Higham will speak at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.

On Thursday evening Rev. Higham will speak at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.

On Friday evening Rev. Higham will speak at the church. The services will be conducted by the church choir, and the organ will be played by Mr. H. Webb of Wetaskiwin.
